CUTTING TABLE FOR ROLLER BLINDS UK-2

The REXEL UK-2 is the second generation cutting table, designed to make blind production faster and simpler. Its construction is made from high-quality, closed steel profiles with a powder-coated finish, providing long-lasting durability and corrosion resistance. The tabletop edges are protected with PVC, ensuring impressive durability. The time tested mechanical knife with a high-speed electric motor ensures very accurate fabric cuts.

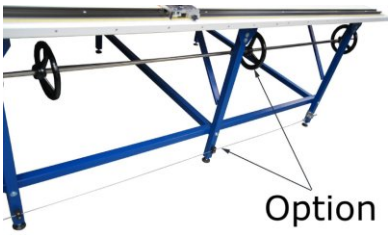

The UK-2 table can cut roller blind fabric from rolls up to 3000 mm in width (optional 3200 mm). The optional tabletop illumination zone helps inspect the fabric before cutting.

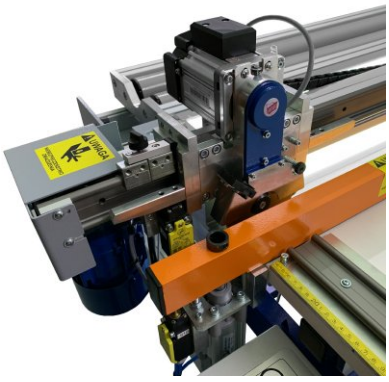

Post-Cutting Table Standard Widths:
- 3100 mm
- 3400 mm
- 4000 mm

Specifications:

- Control panel with durable buttons
- Tabletop illumination zone for fabric inspection
- Improved manual positioner for 90º angle settings
- Pneumatic fabric clamp
- Entirely made from European materials
- Energy chain for cutter cable protection
- Two-direction cutting capability
- Round blade sharpening device
- Cutting width: standard 3000 mm, option 3200 mm
- Table width: standard 3200 mm, option 3400 mm
- Tabletop length after cut-off line: 3100 mm or longer
- Overall width: 3620 mm
- Overall length: 3750 mm or longer
- Tabletop height: 900 mm
- Cutting speed: Min: 0.3 m/s, Max: 0.5 m/s
- Blade rotation speed: 4000 rpm
- Blade diameter: 108 mm
- Voltage: 230 V
- Power: 700 W
- Ultrasonic knife: Not available
- Mechanical round knife: Yes
- Fabric clamp: Pneumatic, one side
- Screen: Yes, optional

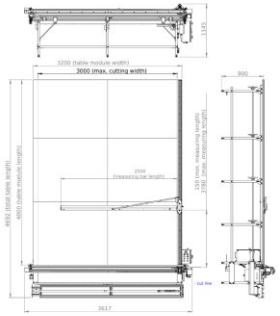

Table of basic dimensions of UK-2 cutting tables depending on the selected length storage module (for max. cutting width 3000mm)

Table module length [mm]	Total length [mm]	Max. measuring length [mm]
3100	3792	2880
3400	4092	3180
4000	4692	3780
4300	4992	4080
