MANUAL MEASURING DEVICE FOR BAND KNIFE PR-3/EP

The manual measuring device PR-3 was designed as an additional component to Rexel band knife machines R1250, R1150, R1000 or R750. It is not, however, compatible with Rexel band knife machine R500. This device allows for an accurate cut of pieces of fabric, foam, and other materials thanks to a measuring line that ensures that the proper length of the fabric or foam is cut. The PR-3 manual measuring stop is equipped with pneumatic locking system. The position of the measuring stop can be read on the electronic display from the operator's side.
Handles on the sides allow for quick and easy measuring bar movement along the guides.

The device can be produced in various colours and dimensions.

Specifications:

Height of bumper 250 [mm] (300 [mm] in R1150 model)
Guideway Profile rail / trolley with ball bearing
Electronic measuring display
Pneumatic locking system
Frame Made of aluminum system profiles
