MOBILE PNEUMATIC SCISSOR LIFTING TABLE ST-8

The ST-8 table is designed for transporting objects weighing up to 50 kg / 110.23 lbs (e.g. bags with concrete, machine parts, metal castings, tools, heavy cardboard boxes etc). The table is equipped with casters with brake and it features a stainless steel covered tabletop. The table has a control valve that allows you to set the height of the table only in the minimum or maximum position. The control pedals are located on two sides of the table. The table features an ergonomic handle that ensures convenient movement of the table. This handle can be easily detached for efficient transport and compact storage.

Key features:

- This solid construction is based on steel profiles and two pneumatic cylinders.
- The pneumatic cylinders are foot-controlled.
- The table has a connection slot for pneumatic tools.
- Disconnecting the air supply cable does not make the table fold.
- It has been proven that using our lifting tables reduces energy use by 15% compared to upholstery trestles.
- An increase in productivity of at least 14% has been observed when employees use our lifting tables instead of regular upholstery trestles.

Specifications:

Model: ST-8

Working pressure: 6 bar (87 PSI)

Tabletop dimensions: 950 mm x 550 mm (37.4" x 21.65")

Pneumatic cylinder: 2x D80x290

Minimum height: 350 mm (13.78")

Maximum height: 950 mm (37.40")

Maximum load: 50 kg (110.23 lbs)

Overall size (LxWxH): 1100x550x1070 mm (43.31" x 21.65" x 42.13")
