MOTORIZED REWINDING TABLE FOR ROLLER BLIND FABRICS PMR-2

Key Features:

- Table designed for rewinding roller blind fabrics from a roll onto a cardboard core; ideal for handling shorter lengths.
- Rewinding is performed with the aid of a foot pedal, while motorized winding rollers ensure smooth transfer of the material onto the core.
- Constructed from a stable bolted steel frame with closed profiles and a 25 mm laminated MDF worktop.
- Integrated mechanical fabric counter.
- Equipped with a manual OT-1/R end cutter, or optionally a semi-automatic OT-1/A cutter.

Specifications:

- Maximum fabric roll width: 3400 mm (134")
- Maximum fabric roll weight: up to 40 kg (88 lbs)
- Maximum fabric roll diameter: up to 300 mm (12")
- Power supply: 230 V AC
- Motor power: 180 W
