PNEUMATIC LIFTING TABLE FOR UPHOLSTERY ST-5

This table is a smaller version of the standard ST-3 table. It is designed for companies that have to deal with lack of space or produce small pieces of furniture.

Key features:

- This solid construction is based on steel profiles and pneumatic cylinder.
- The pneumatic cylinder is foot-controlled.
- The table has a connection slot for pneumatic tools.
- After turning the table off it blocks automatically (cutting power off does not make the table fold).
- The table can be equipped with a drawer for upholstery tools.
- It has been proven that using our lifting tables decrease the use of energy by 15% in comparison to upholstery trestles.
- An increase in productivity of at least 14% has been observed when employees used our lifting tables instead of regular upholstery trestles.

Specifications:

Model: ST-5

Working pressure: 6 bar (87 PSI)

Tabletop dimensions: -

Pneumatic cylinder: D100x500

Minimum height: 600 mm (23.62")

Maximum height: 1250 mm (49.21")

Maximum load: 70 kg (154.3 lbs)
