PNEUMATIC PRESS FOR UPHOLSTERY PDM-1M-D

PDM-1M-D upholstery press can be used in manufacturing big pieces of upholstered furniture with springs or upholstery foam. Special version with two cylinders with folding out frame designed to upholster long and narrow pieces like benches or head boards.

Key features:

- Pneumatic press for upholstery designed for increased efficiency in furniture industry.
- Facilitates the production of furniture; it provides even compression of springs or foam to the desired thickness over the entire surface.
- Time-saving device; it can be operated by one person. The press holds the elements of the furniture in the same position in which it was placed under the press for the upholstery and provides an easy access to the entire back side of the furniture piece, without moving it.
- Pressing force is indicated on the operating pressure regulator, mounted on the head of the press.
- It is possible to adjust the height of the cylinders using holes in the frame.

Specifications:

Model: PDM-1M-D
Tabletop dimensions: 2800x880 mm (110" x 34.6")
Adjustable tabletop height: 558-858 mm (21.96" x 33.77")
Upper mound dimensions: 2280-3280x340 mm (89"-129" x 13.38)
Working pressure: 3-9 bar (43.5 - 130.5 PSI)
Pneumatic cylinder: 2x D100x350
Pressure regulator: Yes
Cylinder height adjustability: Yes
