PNEUMATIC PRESS WITH DRAWSTRING SYSTEM PDK-2/PDS

Key features:

- The upholstery press with a drawstring system makes it possible to quickly upholster seatings and backrests that employ drawstring;
- Foot-controlled pulling system for easy drawstring application;
- Movable arms make it possible to turn a drawstring press into a regular upholstery press;
- Our presses will help you increase efficiency in your production site;
- The press is a perfect solution for backrests and seatings that employ drawstring;
- A built-in pressure regulator will help in applying a proper force on the upholstered element;
- Secure working conditions with our safety system - the pressing element will lower only when two buttons are pushed at once.
